Thirty years of the same job, in every state, in both halves of the commodity cycle. That is the argument, and the four numbers above are all of it.

THE PROGRAM

The “Ations” of Agriculture

Damian’s presentation is a forward looking outlook about issues in the marketplace that will be impacting the business of Agriculture. It is fast paced, humor infused Ag commentary where he connects the dots from consumer issues to regulation to political movements to societal changes and current events and what it means for our industry. Also, he puts in a bit of feel good facts about the industry. And, he provides business reality and opportunity coverage, always bringing the issues back to the crowd and making it about them. Beginning 2023 Damian titled the program The “Ations” of Agriculture, addressing the words ending in “ation” that impact our industry: Immigration, population, regulation, confrontation, inflation, threats from other nations.

ON THE RECORD

What the last three committees said

“I had the pleasure of attending this (Farm Credit) meeting and you have an amazing ability to lead a room and pull all the messages together. The blend of your knowledge and humor is inspirational.”

MELISSA BOCKMAN, BAYER

“I thought today went great. The overall message and how you brought it home worked extremely well and was easy for staff to follow: how will this impact FCW, our customers and me. Well done!”

WILLIAM NOLAND, FARM CREDIT WEST

“The absolute best keynote speaker I’ve ever had the pleasure of listening to. Hilarious, honest, informative, and real. Would recommend Damian to any organization for their events!”

DUSTY RICH, WESTERN SALES DIRECTOR, BW FUSION
